

*The Lane Companies
1150 Units*

A \$150 million in town mixed-use community, which will include 1,150 mid-rise apartment units (full build out) located on the site of the now defunct Atlantic Steel Company. The site is currently designated a Brown Field site by the Environmental Protection Agency (EPA). Plans include an environmental clean-up of the site prior to construction. An in town neighborhood with a townhouse streetscape that will include sidewalks and entry stoops, with a mix of retail space, lofts and live/work units as well as traditional apartments with mezzanine top floors.
