A Senior Housing and Assisted Living community of 180 units, Alamo Heights is envisioned as a market rate development with resort style amenities for a clientele that truly enjoys living. Situated in the historic Alamo Heights neighborhood outside San Antonio, the design of the project embraces the unique local flair for luxuriating in the outdoors. By arranging interior amenities like the dining, library, fitness and pool rooms to engage exterior amenities such as courtyards, covered walks and entry stoops in a climate that is green almost year-round, the resident experience is enriched and enlivened.
