

Columbia Grove

Affordable Housing • Multi-Family

Atlanta, Georgia

Columbia Residential
139 Units
7.2 Acres
19.17 units/acre

This multi-family housing development is located on a site with 60-foot of fall. Terrace units are incorporated into the building design to account for the sloping site. Buildings are brought up to the edge of the property to define the street. Parking is located on the interior of the site shielded by buildings. In line leasing office and metal awnings, brackets, and simple hipped roof line give the project a clean and contemporary look.
